

**“BowTieXP is the most advanced software**  
that structures risk assessment and visualises the links  
*between risk controls and operational activities”*

Jan Hart, CEO of Falck Global Safety

## What is BowTieXP ?

BowTieXP helps organisations to analyse and continuously manage their risks. It allows risks to be visualised in a unique way, showing causal relationships and escalation pathways, as well as the everyday controls that are critical to minimising those risks.

# Why use BowTieXP?

## Top 5 reasons why you should use BowTieXP for risk management:
